

Transitional Zone

PI-RADS Assessment – T2W TZ

- Score 1:
 - Normal appearing TZ (rare)
 - Round, completely encapsulated nodule (typical nodule)

Transitional Zone

PI-RADS Assessment – T2W TZ

- Score 2:
 - Mostly encapsulated nodule
 - Homogeneous circumscribed nodule without encapsulation (atypical nodule)
 - Homogeneous mildly hypointense area between nodules

Play K

- Multiple Nodules
- Look for one that is different, otherwise you will overcall and drive your self crazy

Transitional Zone

PI-RADS Assessment – T2W TZ

- Score 3:
 - Heterogeneous signal intensity with obscured margins
 - Includes others that do not qualify as 2, 4, or 5

A screenshot of a video player interface. At the bottom left, there are playback controls: a play button, a volume icon, and a progress bar showing '15:44 / 30:24'. At the bottom right, there are additional controls: a play button, a 'cc' button, a settings gear icon, a double arrow icon, and a double arrow with a downward arrow icon. A red progress bar slider is visible in the center of the player.

Transitional Zone

PI-RADS Assessment – T2W TZ

- Score 4:
 - Lenticular or non-circumscribed, homogeneous, moderately hypointense, and <1.5cm in greatest dimension

Transitional Zone

PI-RADS Assessment – T2W TZ

- Score 5:
 - Same as 4
 - $\geq 1.5\text{cm}$ in greatest dimension
 - Definite extraprostatic extension/behavior
